Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.

From Mr. JOHN J. MASON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From MR. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that dip keep scab out of the flock."
From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

PROROGATION OF CONGRESS

Yesterday the term for the ordinary Congress session expired, and President Roca has prorogued or extended the session until the list of measures which we give hereunder is despatched. There is this year a departure from the ordinary rule in such cases made and provided, by Government having decreed that during the extra session the Congressmen receive their pay the same as in the ordinary session, which always increases the cost of Congress to the country; yet, in the absence of this rule, it was found that in former years the legislators were too impetuous in their despatch of prorogued business, and many useful measures were passed to the ensuing year, to the great prejudice of public interests.

A glance at the schedule of bills to be despatched, which we give at foot, would frighten even Mr Gladstone; and, if from May to October our legislators only got through two measures of importance, it speaks the indiarubber qualities of the legislative mind that all the bills at foot are to be taken up and done for before the 1st of November.

Strange to say, we do not find in the list the Hundred Million Loan Bill which has just so startled this market: possibly it goes under a new category, but we are free to admit that the close of this Congress, which at its inauguration we termed Golden, is another instance of blighted hopes and the fickleness of sublunary affairs.

The following is the list:—

B. Ayres, Sep. 30, 1881.

Availing of the power conferred on him by Art 86, clause 12, of the National Constitution, the President of the Republic decrees:

NATIONAL TELEGRAPHS.

Before telegraphs were invented and a regular post-office system had been established in Europe, in other words in the 15th century, about the time of the discovery of America, the Incas and the Mexicans were far ahead of Europe in the quick despach of messages. Then the guanaco and the fleet Indian carriers stood instead of the present telegraph system: but now-a-days in those territories both the old system and the modern system have fallen into decay, and we believe that of the South American Republics the River Plate is the only one that has attempted to rise to a par with Europe. Six thousand kilometers of National telegraphs connect all parts of the Republic, and considering both distance and service the charges are below those of Europe. The fact may be appreciated by those who may have to send a telegram to Oran or some other 'ultima thule' of the Republic—comparing the charge with a European fee for the same distance would soon show a palpable difference: in the former case an ordinary message only costs $1 fuerte.

Since the end of 1880 the Government has constructed about 700 kilometers more of telegraph lines. A line has been established since to Choel-es-Choel and to Patagones, and there is little doubt that the wires will soon go to the Nahuel-Huapi, at the foot of the Andes. This impulse is not mainly due to the political interests of the Government: on the contrary, it rises from an imperious necessity evident all over the Republic, and it is quite incredible to hear of the many new places begging for telegraph stations. Telegraphs are of recent birth: they were first used in the country in 1871, when 61,429 private despatches were sent: in 1878 the number of private messages amounted to 200,000 and in 1880 to 234,634.

The old lines are in a melancholy state, not so much owing to the frequent passage of the electric fluid as to the wear and tear of the strong winds and heavy rains. The wires have not only to contend with the destructive elements of nature, but they find ingenious enemies in the hand of man. Many injure the wires because they interfere in many cases with their interests. The official report states that on the Literal lines disasters to the lines have been closely allied with every revolution and mutiny. In the North and West hurricanes and floods have often borne along both posts and wires. The authorities have done their best to preserve the lines, lacking the necessary funds to renovate same. At present the lines are being actively repaired, as imminent ruin was threatening many of them.

Mr. Ojeda, our esteemed Postmaster-General, states that telegraphs cannot subsist unless the lines are continually renovated; furthermore, that the repairing of a bad line costs more than the construction of a new one. The latter fact we do not for e moment doubt, and it must be especially the case with those lines that are already ten years old. During the first years subsequent to the construction of telegraph lines, scarcely any money was needed in repairing them, whilst in 1878 $ f.20,000 were spent for the purpose. In 1880 the expenses of repairs rose to $ f.40,000, and these expenses in the present year will exceed $ f.70,000 patacons. Mr. Ojeda states that a reform is most necessary, and advises the construction of supplementary lines to insure direct communication between Buenos Aires, Entre Rios and Corrientes, and thus relieve the Rosario office, where the crush of messages is telling heavily and daily increasing. Furthermore, the Western line from Tucuman to Catamarca should follow a different route in order to avoid the daily danger of being swept away by the mountain torrents; and a new line should be established between San Juan and La Rioja, in order to complete the telegraph net of the Republic.

It is expected that in 1881 the repairs of the telegraph lines will exceed the expenses of same, owing to the sweeping economy introduced. In 1880 they produced $187,230, whilst the expenses rose to $ f.202,207,40. The first three months of the present year show already an increase of 8 per cent., which is a very healthy sign. In the succeeding three months the income rose to 10 per cent. compared with last year, so that a 15 per cent. increase is calculated for the present year. It is estimated that the returns will reach $200,000. The budget of the present year is only $ f.192,000—thus we may expect to see an excess of returns over expenses of about $ f28,000. If the latter figures turn out correct, it will be a triumph for the Postmaster-General. In no country in the world is organization and econo-

my in telegraph lines so difficult as in the Argentine Republic. When we consider that the lines are divided into seven sections, and that each section may be said to cover an area equal to a European State, we cannot withold our warm congratulations on the able management of the wires.

COLON THEATRE.

Plot of the opera-comique in three acts 'Piccolino,' words by N. Sardou, music by Guiraud.

As Piccolino is a new piece in Buenos Ayres, and no librettos are on sale, we will give the plot of the piece in a few words.

Act 1.

A room in the house of the clergyman Tidmann at Lausanne. It is Christmas Eve. Denice and Charlotte, daughters of the clergyman, are arranging everything for the time the children will come home. This act opens with a very fine trio. Enter Martha, a farmer's daughter, who has been betrayed by Frederick, a painter, and found a refuge, after her lover had left her, at the house of Tidmann. The aria

Noel . . . . Deja? Bientot une nouvelle annee.
Va commencer son cours,
Et moi trahie . . . . . abandonnee,
J'attends encore . . . . . j'attends toujours.

sung by Martha when entering the room, has a very striking effect. Enter the children and afterwards M. Tidmann. The Christmas chorus is sung by the children. Enter Annibal and Musaraigne, two friends of Frederick, the one a 'soi-disant' composer who pretends that everything can be reproduced (which occasions very humorous scenes) in music; the other an amateur painter. After they have left, Martha, who has heard a conversation between the two friends from which she concludes that Frederick is going to Rome, and is in a melancholy state is requested by Tidmann to state, the reason; she refuses at first to tell this but afterwards discloses the truth. Tidmann intends then to leave with Frederick's two friends but Martha flies from the house and starts alone for Rome.

The second act passes in an inn at Tivoli where Frederick is in love with Elena, the sister of a rich nobleman. In the beginning of the act is the splendid aria by Frederick

Je l'ai revue et j'ai pu lire

which ends with

Pour revoir, pour entendre encore
L'enchanteresse que j'adore
Je me ris des jaloux, je brave le peril
Loin d'elle l'existence est un mortel peril.

Frederick is playing a dangerous game, as Strozzi (Elena's brother) is a dangerous person. He is rejoined at the inn by Annibal, Comête and Musaraigne his friends. Requested to state the colour of his sweetheart's hair, he states that she has hair of the colour which his friends like best, which gives rise to the humorous arias

C'est la brune la plus belle

ending with

La plus belle, je vous jure
C'est la femme sans cheveux

and the calembour

Oui le moment mes amis
Le plus doux sans contredit
C'est quand la chauve sourit.

At last Martha enters dressed as a boy who is taken by Frederick. who does not recognise her, into his service under the name of Piccolino. She is then installed as apprentice; directly after she saves the life of Frederick who was about to be assassinated by order of Strozzi, and Martha receives a wound in her arm. This act ends with an

Ave Maria
Gratia plena

sung by the chorusses.

The third act passes in Rome; Martha is still, as a boy, with Frederick. Elena is in Rome too, passing the Carnival, Frederick continues his intrigue with her till he receives a visit from Strozzi who gives him to understand that, if Elena does not give up her love for him she will have to enter a Convent. When Strozzi came to see Frederick Elena happened to be in one of the rooms next to that where the conversation took place, without his knowing it, as she was let in by Martha when he was not at home. Martha tells Frederick that Elena was there and is discharged by him on account of her not having told him so. Martha comes then into the room dressed as a peasant girl as she was before, and is recognized by Frederick who, hearing at last that she was his boy for so long a time, recompenses her love for him by marrying her.

One of the nicest arias in this act is that when Martha, after having tried to keep Frederick, who had a rendez-vous with Elena at home, having succeeded in that, is requested to tell a story, which she does in the aria—

Il etait un bergere,
Et ron! et ron! petit patapon.
Il etant un bergere
Qui gardait ses moutons, ron, ron!

in which she tells her own story, hoping to be recognized by Frederick.

The whole piece, in fact, is full of musical gems, and we can recommend all amateurs to go and see it. After the first performance we will give an opinion about the singing and acting. For the present we can only compliment Mr Grau, who gives another proof that he does not spare money in his efforts to satisfy the public. We hope to see this appreciated by a numerous audience.

BUENOS AIRES AUDIENCES.

It would be easy to pass, without comment, the report, signed De Montheolo, on the performance of Pre aux Clercs last Thursday, were it not for the unmerited lashing bestowed on the audience. The latter may not be academic, but there are musical critics who sprout up from time to time under fantastic titles who have much, very much, to learn before they will be able to dictate good taste to a Buenos Ayrean audience.

There is a veneer about their lyric phraseology which betrays an incapacity to judge the difference between tweedle dee and tweedle dum, and like to the blind their pretension soars above their merit.

It might, perhaps, puzzle De Montheolo to explain his explanation of the overture; equally difficult is it to account for the coldness of an audience when the performers are not at fault. If D M. will read the reminiscences of Kemble, he will find reference to this undivulged law of Nature.

On several occasions when Kemble acted as he contessed, weakly, the warmest applause was bestowed on him, and on the other hand his best efforts at times brought him the least recognition.

And yet our fathers aspired to be critics, and even in the present day there are old stagers who turn up their savaut noses at modern minstrels.

The experience of actors in all ages is endless repetition. The required amount of electricity is not always on hand, and Mr Grau would be the last to encourage a 'claque;' his company possessing excellence which can well dispense with such excrescence.

D.M. ought to have looked Thursday's audience fairly in the face, and he would have recognised a large number of the French colony who knew the Pré aux Clercs by heart long before he dawned on cold audiences. All said, 'Pré aux Clercs is not the best opera hitherto given by the Grau troupe, notwithstanding Mlle Leroux's tender rendering of 'Souvenirs du jeune age' and her brilliant vocalisation when she interpreted the aria commencing 'Jours de mon enfance.'

Mlle Merle and Mlle Gregoire sang better than in any previous opera.

It would afford much pleasure to opera goers if Mr Grau would let them hear La Dame Blanche. He may count on every Scotchman in the city, perhaps D. M. will ask why.

EDITOR'S TABLE

The R.M.S. Mondego and the French steamer Orenoque bring a week's later dates from enfeebled Europe, to the 7th ult. The principal news from England is the formation of a 'National League' for the Three Kingdoms, on the model of the Irish Land League, but the general opinion is that it will not have as much influence as the latter. The Irish Home Rule vote is now being thrown in for the Tories at all the elections for vacant seats. Our old friend, Eyub Khan, has abandoned his rebellion against the Ameer of Affghanistan, and means to confine himself to pitching into the British for the future. So much the worse for him. General Ignatieff's nomination as Russian Foreign Minister is not looked on as particularly favourable to the maintenance of peace in Europe. A German-Austrian Italian alliance is much spoken of.

We give in another column the list of Bills to be either passed or shelved during the extra session of Congress. Judging by the performance of the legislators during the past five months, the work cut out for them in the extra session will take them at least 20 years to get through, working night and day, with an hour in the 24 for breakfast and dinner. Joking apart, does any one imagine that one quarter of the Bills on the list can be discussed properly and passed in a couple of months? We pity the legislators and the country too.

There has been another unequal fight on the South frontier, at Chase-Leobu, betwees 15 troopers and 60 Indians. This time, fortunately, the savages preferred living to fight another day, and retreated with some slight loss. Subsequently 40 men well mounted were sent in pursuit of them, and overtook them, sent five of them to the next world and wounded a lot more; the rest escaped across the Colorado. Messrs. Dillon and Rojas, the surveyors, and party, are down there working away, and a party of Indians ran away from them the other day thinking they were troops. Surveyors sometimes have a little of the military swagger about them, and the Indians may be excused.

The 'periodistas presos' are the hobby horse for the hour. On Friday General Osborne graciously interceded with the Chamber for them, through the Minister of Foreign Affairs, and the Deputies agreed to set them free if they would ask the boon in writing, without questioning the Chamber's right to lock them up. The Director of the *Nacional*, like a practical man, at once accepted the conditions. The Director of the *Tribuna Nacional* said he would think about it, but all the others heroically preferred martyrdom, and elected to stay where they were.

High life was out of bed till the small hours this morning at the Progreso Club ball. The house has been redecorated splendidly, and looked magnificent yesterday when prepared for the dance.

The race of fools is not extinct. The London papers report the case of a fellow, calling himself Ledru Rollin Reynolds, who got up a bogus prospectus of a mine and pocketed no less than £7,000 in hard cash, instalments paid on shares in his imaginary mine. He had 25,000!! applicants for shares.

The Italians go in for another fete to-day at the Exhibition Building in Calle Cerrito: Greased pole, games of all kinds, gymnastics, raffles, fireworks and what not. The Italians are spending all the money they made in National Bank shares in amusing themselves.

A Bragado subscriber called on us yesterday to say that the news given in the papers about 'epizootia' amongst the cows in Bragado, is purely the offspring of a fertile imagination. There has been oceans of rain, and neither camp, cattle, or Christians in that partido have ever looked better since America was discovered.

The *Nueva Revista* for October is very interesting. Mr, Agote's chapter on the Public Debt we commend to Bolsa men. Mr. Olivera contributes a nice paper on the Argentine P.O. in the year 1810; Mr. V. Quesada on the Independence of Urnguay, and Mr. Morel on Misiones. All are capital reading.

The report of the British Hospital for September shows 35 patients in the house on the 1st, 24 received, 29 discharged alive and 2 dead leaving 28 to begin October with.

Yesterday the Municipal order for all shops to close to-day was posted up at the street corners. A smart fine will be the result for all who disobey.

NINETEEN suicides in Montevideo last month, one of them a girl of 17!! This is truly appalling, and seems at last to have awakened the people there to the true cause of it, viz., the decay of all religious influences amongst the whole population. This is so apparent that none can dispute it; and, as a correct diagnosis of the disease is the first step towards a cure, it is to be hoped that our neighbours will make some effort to stem the torrent of irreligion and unbelief which the awful figure of Nineteen suicides in one month in such a small city reveals.

The Rev. Gybbon Spilsbury will conduct Divine Service in the Flores Chapel of Ease this morning at 11 a.m.

The services at the American Church to-day will be commemorative of President Garfield's worth. The Sermon, both morning and evening, will be a recognition of the ennobling and far-reaching influence of the departed Christian statesman. The house has been appropriately draped, and the music will be in harmony with the solemn occasion.

Divine service is held to day at the Estancia Aroma, Magdalena, (Mr J W Nicol's) instead of at St. Audrew's Scotch Church, Chascomus.

Our new colleague *El Diario* gets more lively and interesting every day. It is the greatest hit in the way of an Argentine paper we have seen since we entered the Editorial Bus more than twenty years ago, and beats Hector Varela's *Porteño* in its best days, hollow. By the way, our quondam colleague is expected back here next week. But to return to the *Diario*, we recommend those who wish to learn something of the new President of the United States, General Arthur, to buy yesterday's issue of our colleague and read the report of an interview one of its reporters had with General Osborne, U.S. Minister, the other day.

After prayers, the best place to go to-day is to the Argentine Rural Society's Exhibition at Palermo. Several military bands will play on the ground. At 3 o'clock all the horses on show will be led out for a walk, and a little later the carriage horses will be put in harness and driven about, so that visitors may form their good or bad opinions of the different 'crias.' We hope none of our subscribers will be so rash as to attempt to get inside any of the carriages, as it would quite unnerve us to think that they might be asked to learn to fly before they came to their journey's end. The machinery will be working between 1 and 6 p.m. Silk weaving will also be carried on in its department. The prizes will be awarded on Wednesday next, and on that day all schools will be admitted gratis.

The police have been put on the track of the party who issued the bogus invitations for Mr Berdier's ball, and some spicy High Life revelations may be shortly expected.

At half past 4 yesterday evening Don Francisco Carulla, so well-known in connection with the Cloth Factory, fell dead suddenly in the patio of the General Post Office. The corpse was temporarily placed in one of the rooms, pending the usual formalities.

An attempt was made yesterday in Montevideo to assassinate Gen. Batlle by two men who fired several shots at him in the street, one bullet grazing his head.

Patacones.....	25.60
Cedulas A	99⅝
National Bank Shares..	122

The market opened this morning under the very best impression, owing to the satisfactory close of the liquidation. It really speaks volumes for the credit of our Bolsa where such tremendous differences in so small a market are so honorably met; the only default being by outsiders who must certainly be held responsible before the Courts for their orders. It is not probable that the speculation this month will be so heavy as last; gold opened this morning for ready paper money at 25.55, but was at once caught up, and the subsequent sales were at 25.60, at which price the market is hard. The gold business was not to say large, only 63,000 pats sold cash, and for end of month 122,000 pats at 25.55 to 60. Prices for end of year weak and done at 25.55.

Cedulas, which were looked for at par were less firm, opening at 99½ and closing at 99⅝ cash, and for end October firm at 99⅝. Small business done, only 82,900 sold in all.

National Bank Shares look dreary and weak; there is no longer the go in them that opened last month; the horse seems tired out. 1,158 shares cash, opening at 123, dropping to 121, and closing at 122. For October 3,972 shares sold, opening at 125, dropping to 123, and closing at 123½. Total sales, 5,730 shares.

The sales at the ring were—
For cash 63,500 25.55-60
For Oct. 31st 122,000 25.55-60
For Nov. 30th 15,000 25.55

Mr Oldham left Montevideo this morning for Rio Grande per steamer to see about repairing the cable. People ask what has become of the Str. Norsemann. The land line in the Banda Oriental they say is also stopped, which is attributed to politics, although we heard on 'Change that a telegram from Rio dated yesterday was received to-day. But even in this market there is an uneasy feeling about Oriental politics; some say that messages arrived announcing Latorre in Entre Rios, and that parties in Montevideo have escaped on board men-of-war this morning.

Gold at afterhours ruled very hard, no sellers under 25.65. Exchange rules the same, some brokers re ort that American houses will not draw over 49⅜, although the Provincial Bank rate gives 49⅝ almost. There was talk on 'Change of the note of Minister Uriburu to the President of the Bank ordering the payment of certain funds for the service of the new Provincial Debt and the Rischuelo loan. People are most anxious to hear from London and the feeling there on the news of the Hundred Million Loan project; many merchants think that it will defeat the Prov. Loan for 20 millions to pay off the Provincial Bank, that is to say, if the business is not thoroughly concluded in London before the news arrives; of coure, should there be the least hitch in this business it will at once affect our market here. The article in to-day's *Prensa* against the Hundred Million Loan was much discussed by Arg. brokers and meets with great approval.

On Monday the first lot of new wool will be in the Plaza Once, some 250 ar. from Gorostiago; it comes consigned to Don Nicanor Fernandez. It is indeed very early for new wool to come into market, and from many farmers in our office to-day we learn that shearing has not even begun yet in any of their partidos.

There was a very large attendance in the Exhibition grounds to-day, and we must correct an error we fell into in marking down some of the great agricultural machines on show as exhibited by Mr Shaw, these machines are all exhibited by Messrs Drysdale and Co, but some placards up in the room led to our mistake. To-morrow all town goes to the grounds and Show, as by the new Municipal edict even the cigar shops must henceforward remain closed all day on Sunday.

A petition has been laid before the Minister of the Interior to run a diligence from Patagones to fort Gen. Roca, along the Rio Negro; this will be good news for Messrs Kincaid, Sinclair, Rodriguez and others; all that part of the country is rapidly progressing.

The payments on 'Change to-day for produce were not heavy, but the payments for stock differences on the month's liquidation were heavier than usual, millions were paid away for these accounts.

Messrs Reapen & Co have sold—
6800 mak. sheepskins at 23 rls
150 doz camp (consums) skins at 22½ rls.

One lot of wool arrived in from the camp to-day at the Plaza Once, and was sold at 80 m/c.

Mr Diekmann has moved his barraca San Francisco, to Calle Victoria 905.

The *Courrier* put up on the black board a rather important bulletin, announcing the occupation of Tunis by the French troops. Many fear that this will lead to trouble with Italy.

Mr Smithers is expected here on 6th inst. in str. Neva. Hon. Mr Petre, our new Minister, is also on board.

The Herschel and the Pliny both left to day for Europe full ships. Plato also left for Parana. The Leibnitz, with Liverpool dates to 7th Sept., is expected to-morrow; she was detained a day or two in Liverpool.

We heard on Change that 100 m/c has been offered on contract for a well known Lincoln wool of Lobos and declined.

Mr Darbyshire, of Entre Rios, was welcomed on Change; he reports camps good up there. At 3 o'clock many of the brokers who had closed their liquidations started for the Exhibition at Palermo to cool the over heated brain. The stress for the last few days was tremendous.

All during afterhours Bank Shares ruled demoralised and offered freely for cash at 120, but no buyers. The market looks as thoroughly broken, and any new speculation to make headway must be for a fall.

It was announced at 4 o'clock that the Argentine Government had determined to send Dr Don Jose Uriburu on a special mission to Peru; this news gave rise to many remarks.

The Orenoque's mails came up this morning; we give in another column the grand news we received from London of Don Carlos Urioste having obtained the prize in London at the Exhibition for his wool, and congratulate Mr Urioste on his merited distinction.

The Custom House receipts for September amounted to 1,142,767 pats, which we may mark down as gold, the difference is so slight.

The Orenoque will be up in the morning, and on Monday we hope to welcome half a dozen of new wool buyers. We hear of many wool contracts in the camp, say 200,000 ar. new wool contracted for at from 75 to 81 m/c.

The news from Carhue about the Indians was the talk in English estanciero circles, even according to the Government telegram it has been a hard business, and the Indians showed fight. We have again to demand of the President a strong force on the Colorado, which is the most exposed point, and not infantry but well mounted soldiers. The Indians swam the Colorado and escaped; the old story.

Discount brokers report money in increasing demand and each day getting tighter; gold rules abundant, but many dont care about borrowing gold.

The Orenoque's mails bring the following from the London money market:—

"The quieter feeling in the money market, which we referred to yesterday, was further exemplified to-day in the allotment of Treasury Bills, which were made for the most part, as noticed below, at a rate equal to discount at 3⅜ o/o per annum only. This afternoon, however, on another considerable withdrawal of gold for New York, which has taken place somewhat unexpectedly [the quotation of the New York exchange received during business hours being again a little higher], the market has once more hardened, and the rate for 3 months' Bank bills is quoted firm at 3⅝ to 4 o/o. The rate for short loans also continues firm at 3½ to 3¾ o/o. The market is necessarily very sensitive to gold withdrawals, as the Bank reserve, in view of the usual autumn requirements, is too small to be trenched upon to any serious extent without a further rise in the rate. Although the New York drain also may not be very active, one or two withdrawals like what have occurred to-day cannot but be felt in the course of 2 or 3 weeks. The probability of an early rise to 5 o/o is thus made stronger by to-day's withdrawal; but there is no occasion, of course, for the Bank Directors to be precipitate, or to force the market. The French exchange is again rather higher at 25.29½.

Mr Altgelt gives the following on the wheat market.

Arrivals—
Wheat, kilos 197,251
Flour do 273,608
Maiz do 751,588
Hay bales do 706

Besides 1906 bags of wheat and 6322 bags of maize lying at the station, but as yet unweighed.

Export—
Maize kilo 350,000.
Wheat—

The new crop looks very promising though in the earlier part of the week great fears were entertained that it might be lost from too much continuous rain. The weather has, happily, improved so much that now we may expect an abundant harvest. Very little doing in the market; one good lot from Rosario fetched 170 to 165 m/c; a lot from Bragado sold for 150 m/c. No animation in the market.

Flour—

The great event of the week is the export of this article for Rio. The Douro take 600 bags; the Plato will carry 1000 more. The German barque Anton has been chartered to load 300 tons at Santa Fe. After this there will still remain a stock of 300 tons in Santa Fe. Prices unchanged.

Maize—

Coming down slightly in price.

The Provincial Government has addressed a note to the Chief of the Engineer Department requesting him to immediately send a competent member of the staff to the South of the Province to report on the floods in those parts, and if they are as alarming as rumoured he will at once propose such measures as he may consider necessary to prevent further danger.

Telegrams from Tandil announce that burglars had robbed the telegraph office of that town. The thieves have not as yet been arrested.

The estancia known as the Ombues, in Colonia, has been sold. The land comprises two-thirds suerte, with the stock consisting of 12,000 sheep, 1500 horned cattle, and a large azotea house fetched 60,000 Nat. dollars. The estancia is situated 10 leagues from Colonia, and was valued 12,000 Nat. dollars the suerte; the sheep at 90 cents, and the horned cattle at 6½ Nat. dollars. The houses, corrales and wire-fencing were included in the bargain.

We have received from the Mauritius the following advices:—

"We only import mules from your port, [but I should mention that there is also an outlet here for tallow in moderate quantities]. The last arrivals of mules have been by the C G Rice from Montevideo, by which vessel 168 were received, which have not, however, yet been offered at auction. At the last sale by auction of B. Airean mules the average rate obtained was 150 per head, a price which was only got with extreme difficulty.

"Exchange—

"Bank bills on London at 90 days, 19 o/o premium.

"Document on London at 90 days, 17 o/o premium.

"Bank bills on Calcutta and Bombay at 30 days, 1⅞ o/o discount.

"Document bills on Australia at 60 days, 17 o/o premium.

"English and Australian gold is worth 20 per cent premium."

We have received by the French mail the following interesting letter from London, September 3rd, 1881:—

People are still out of town and nothing going on. The late rains just as the corn was out, have seriously altered the prospects of the wheat harvest. Of crops of all sorts we may expect a fair average, and there is an unquestioned spurt in trade, and particularly with Australia and Bombay. I enclose the official notice of awards in Crystal Palace Exhibition. Do not forget to tell that two Irish firms have received the gold medal for woollen goods. There will be a great row amongst the Uruguay exhibitors who have not received medals, and it is the same here, but I believe and indeed know as I accompanied them that the jurors were the most competent men that could be selected, and that they judged everything on its merits. I have been going in deeply into wool statistics lately, and I can assure you that the falling off in exhibits of woolens in this country is exclusively confined to worsted goods made from long and comparatively coarse wools. The export on woolen goods proper have increased by two millions. The Bradford people, who have suffered from a recent change of fashion, are beginning to see that it is not a question of free trade but of imitating the Belgians and French in the working of finer wools. The old broad distinction between 'clothing' and 'combing' wools is getting out of date. The whole distinction now between woolen and worsted yarn is in the process of manufacture. To work the softer and burry wools of the River Plate all that is wanted here is a change in machinery. That change will be effected and I see a brilliant prospect for your wools in this market, which consumes more wool than South America, the U. States, and some other places put together can produce at present. They talk of having permanent exhibitions of products of all countries at the Palace. Your Government should bestir itself. The English colonies have what they call Government Agents in this country. Consuls are all very well, but one active man in London at a fair salary could undertake emigration and commercial questions, and attending exclusively to them prints could keep all the different States well informed as to what could be done here, if on their parts they would give timely information as to what they produce and what they want in regards to hands or machinery.

Advices from Rio by the mail give the following:—

"Exchange—Our market since date of our last report [14th inst.] has been unusually devoid of interest, important sales of produce have taken place, but the demand for bills has fully equalled the supply, and our quotations to-day are the same as on 14th instant, say 22⅞ for Bank Bills, and 22 9/16 for Commercial paper, with some exceptional transactions at 22½.

"Supplies of our great staple both here and in Santos have been very large, stock in both ports exceeds 400,000 bags and as crops in the North will soon be available for shipment we quite expect to see a marked advance in rates of exchange ere long.

"On Paris the rates have been 424 to 425 reis per franc Bank, and 420 to 421 reis for other paper.

"Discounts..Declined just after our last report to:—

2½-3 o/o per ann. for	30-60 days	
3½-4½ o/o	"	3- 4 months
5 6 o/o	"	4- 8 "

"The Bank of Brazil reduced its allowance rate to 2 o/o per annum, and it is generally believed that even this low figure cannot be maintained. Accumulations of paper currency in this city are larger than ever heretofore known and redistribution will be a very slow process.

"Gold—Was dealt in as follows:—

Sept.	6th	5,000 sovs	at 10:760
	9th	2,000	10:710
	9th	10,000	10:720

	13th	1,000	10:880
	13th	1,000	10:830
	13th	1,000	10:800
	17th	1,000	10:760
	19th	2,971	10:760
	21st	1,000	10:800

closing apparently at 10:760 to 10:780.

"Coffee—Is declining in consuming markets, fair Rio 11½ to 12 cents per lb. From Europe the cable still announces 44/6 to 46/ for good Rio floating."

We have received the following for publication in this column:—

Buenos Aires, Oct. 1st, 1881

Dear *Standard*,

The official correspondence which you published a few days ago, between H. M. Consul and the Captain of the Port about the shameful treatment of the unfortunate crew of the Pride of Devon by the Port Authorities, has called the attention of some of the principal native papers, as you will have seen by the articles referring to this disgraceful affair in last night's *Nacional* and to-day's *Nacion*.

It would perhaps be very useful, and at any rate interesting, if you would get H. M. Consul's permission to publish also the continuance of this official correspondence, as this matter ought not to sleep but should be well ventilated and be made public, as this is perhaps the only way to rouse the proper authorities from their usual indolence, and oblige them to punish those who have by their proceedings imperilled the character of civilisation of this country.

Yours truly,
A FRIEND OF HUMANITY.

Cien leguas de campo, divididas en lotes de a cuatro, teniendo sin embargo el comprador derecho a tomar desde una hasta las cien.

El Gobierno de Santiago ha sido, como lo de ginos, autorizado por su Legislatura a vender esta gran zona de tierra, pero a objeto de facilitar la operacion, la venta se hara sin otro plano que el de la Provincia, por cuanto se da el derecho de ubicar donde se quiera, dentro de los limites de la misma.

Con este derecho cualquiera persona que este en el secreto de la situacion de un campo inmediato a la plaza principal, a las quintas contiguas a la ciudad o por sus alrededores, puede pedir su ubicacion alli mismo, como tambien los que conozcan donde existen los que puedan tener pastos de primera calidad aguas permanentes, montes, etc.

El Gobierno de Santiago no pretende con esta operacion hacer un negocio,—Su objeto se limita a fomentar el progreso de su Provincia, poniendo la tierra al alcance de todo el mundo, llamando asi a su centro la formacion de grandes establecimientos y la poblacion consiguiente.

El pago se hara mitad al contado al estenderse la escritura y el resto a 6 y 12 meses en garantia del mismo campo.

THE STANDARD—Printed and published every morning at the *Standard* Printing Office, 154 Calle Piedad.

The Orenoque's Mails.

London, Sept. 3d.

There is now no hope of any more passengers from the Teuton being saved. It was thought possible that a boat with 30 women and children might yet be discovered; but, according to a telegram received by the Union Steamship Company yesterday, that boat is known to have been swamped soon after leaving the steamer. Her Majesty has asked to be kept fully informed relative to the disaster. In Southampton there is still considerable excitement; and the Mayor has called a meeting for Tuesday next to consider as to raising a fund for the relief of the sufferers by the calamity.

An important letter in relation to the suspended treaty negotiations between England and France has been sent to the *Temps* by a member of the British Chamber of Commerce of Paris. He points out that while in 1860 England gave up all but the duties on wine and alcohol, France retained duties varying from 5 to 35 p. cent. At present, while France wished to further increase her duties—some to the extent even of 70 p. cent—the English Government had prepared to abolish even the light duty on wines. A prolongation of the treaty was necessary, as the negotiations could not have been concluded by November, and without that it was useless sending commissioners to Paris. Commenting on this letter the *Temps* strongly urges the renewal of negotiations. In this matter England is an exception to other countries, and after the invitation in the Queen's Speech the prolongation ought certainly to be agreed to.

Events are hurrying on in North Africa, where it is quite clear, however the telegrams try to disguise it, that the French troops are thoroughly overmatched by the Arabs. By the last advices they were retreating. The column sent to occupy Hammament was admittedly compelled to retire. The men had, it is said, nearly exhausted their ammunition, and fresh supplies were cut off by the Arabs in the rear. Colonel Coreard, who the other day retired after repulsing two Arab attacks, seems to have felt much relieved when still another attack was not delivered on his camp on Wednesday night. His force, however, watched a boat gliding towards where the Arabs were assembled—with provisions, it is supposed—but they did not venture on interfering with it.

There seems to be about as much local interest taken in the second ballot for Belleville as there was in the first when M. Gambetta was candidate. As he declined to stand again, his place was taken by M. Sicke, who is doggedly plodding through the process of canvassing and addressing meetings. M. Revillon is his opponent; and at an assembly of Belleville Radicals on Thursday night both candidates appeared. One speaker tried to discredit M. Revillon by protesting that he did not honour his bills; but this was promptly denied. M. Sicke had the worst of it. The audience hardly listened to him, and when, irritated, he asked if the audience took him for a fool, the rude reply was that they did.

Two workmen, it is announced, have been expelled from Strasburg by the German authorities. They were suspected of preparing to start a Socialist propaganda in Alsace-Lorraine.

More success has attended the operations of the 'false prophet' in Egypt than was expected. His followers have defeated with heavy loss two companies of troops sent to disperse them; and now the Government are preparing to send reinforcements.

Great sickness prevails among the workmen engaged on the Panama Canal. According to the last accounts the numbers invalided exceeded the accommodation provided in the hospitals.

The polling in North Lincolnshire resulted in the return of Mr James Lowther by a majority of 471—the numbers being 4,200 for Lowther, and 3,729 for Colonel Tomline, the Liberal candidate. At the last election there voted for Mr Laycock, Liberal, who headed the poll, 4,151; and for Mr Rowland Winn, Conservative, who stood second, 3,946,

Sir Stafford Northcote delivered another speech at Sheffield last night at the annual banquet of the Sheffield Junior Conservative Club. Having expressed gratification at his reception in Sheffield, he went on to criticise with severity Liberal policy. The present Government had done little or nothing since they came into power. While Lord Beaconsfield did his best to preserve the integrity of the Empire Mr. Gladstone seemed anxious rather that this Empire should be reduced and circumscribed. Sir Stafford would give the Irish Land Bill a fair trial; and was favourable to free trade, but it should be universal and fair.

All the sections of the British Association were busy yesterday. The Mathematical and Physical Section divided itself into two—one portion being devoted to electricity, the other to pure mathematics. In the Anthropological Section, Dr. Burdon Sanderson engaged in a vindication of the practice of vivisection. Sir Richard Temple addressed the Geographical Section, while Mr. Grant Duff spoke in the Economic. In the evening Professor Huxley, at the Exhibition, delivered an address on the origin and progress of palæontology.

Last night the dwellers in Regent's-square, Gray's Inn-road, were greatly surprised by a sudden explosion. When the smoke cleared away the distorted fragments of a tin canister smelling strongly of gunpowder were discovered near the premises of Messrs Hunt and Roskell; but how the explosion occurred is still a mystery. Fortunately no one was injured.

A strange and fatal affray is reported from Mill-street, county Cork. It is said that the police, having discovered that an armed party were visiting houses for the purpose of seizing arms, turned out to stop the raiders. The constables were received with a volley, the fire was returned, and one policeman was wounded. A farmer's son, named Hickey, was shot dead. There is still a good deal of mystery about the affair, but Mill-street, in which it occurred, has been for some time in an excited and disturbed state.

Two Irishwomen in Rochdale had a dispute about which they were landed in the police court. Advised to settle it out of court, they retired when the one sent the other sprawling down a long flight of stairs. This was the first part of the settling process; the second was the sending of the energetic assailant to prison for a month.

It is now estimated that the total damage by the fire in Cheapside on Thursday will amount to at least £100,000.

Ledru Rollin Reynolds has been again under examination at Bow street Police-court in connection with the remarkable charge of fraudulenty drawing up an agreement, and, with the help of two clerks, getting it signed by three imaginary persons, by which a mine that had no existence was bought and sold. It turns out that 25.000 applications for shares in the new company he then sought to promote were lodged with Reynolds, and £7,000 was paid in, most of which found its way to Reynolds also. The clerks who signed the document have explained their share in the transaction, and the prisoner has been again remanded, bail being peremptorily refused.

In consequence of the withdrawal of £282,000 in gold from the Bank for export, public securities were flat yesterday, and an almost general fall was shown in English and American railways. The depression extended to the Funds and some of the Corporation loans, but Canadian lines and Foreign bonds were comparatively steady. The changes in the latter comprised a decline in Egyptian and Turkish, and a rise in French and Austrian.

LATEST FROM MENDOZA.

(Our Own Correspondent.)

(Concluded)

September 17th, 1881.

I have purposely abstained so far in my correspondence with your journal from touching upon the subject of our paper currency, some solution to the serious difficulties existing being daily expected. This currency, composed purely now for some years past of notes of the Banco de Mendoza, has been to all intents and purposes the only circulating medium at the disposal of the general public for the purchase of its daily supplies of food and other necessaries, since the failure of the Banco Gonzalez about the middle of the year 1879. At intervals, when communication with our Chilian neighbours is in full swing, a certain amount of silver coin is put into circulation, composed of 20 cents pieces, called here Chirolas, which pass for 25 cents of our paper curr; occasionally, however, owing to fluctuations in the value of the notes, silver has had even a higher value, and as the capitalists generally, and more particularly those who are shareholders in the Bank, and consequently behind the scenes, show a strong disinclination to be holders of its notes, most properties of any value are sold for pesos Bolivianos, of 4 Chirolas to the dollar, which naturally contributes very much towards keeping up the value of the silver coin, at no time very abundant in the market. The emission of notes of the Banco Nacional, attempted to be put into circulation here, has never yet been of the slightest service to the public, but rather a source of annoyance to all, who, without being connected with commercial affairs, have occasion to transact business with the 'Curato,' in testamentary, or similar affairs, or at the Post Office, as at these administrations only notes of the National Bank or Chirolas are received in payment, and the fractions of said notes of 2, 4 and 10 cents are only current in the shops at capricious valuations, as they do not lend themselves to an easy conversion of their real value into paper or copper currency, thus invariably entailing a loss on the incautious holders. In the month of June last the executive of this province forced the Banco de Mendoza to go into liquidation and to withdraw its notes from circulation within a given period. The shareholders of the Bank and the managing commissioners, the latter Government nominees, and drawing good salaries, made a hard fight to sustain opposition to this measure, their principal argument being, that the worst outstanding the Bank held was that due to it by the Government of the province, and that if the sum due were to come into their coffers, as they had a right to expect it would, the Bank would be in a position to comply with all its obligations and at once proceed to the conversion of its notes in circulation. This argument, or explanation, has not been admitted, and the general public have fully approved of the non-acceptance of the Bank's offer, but they were hardly prepared for the solution which the Executive had hit upon, as a way out of the difficulty. The powers that be say to the Bank Directors—you must go into liquidation, but, in order that you may not lay the blame on our shoulders, we will guarantee a proportion of your emission by the addition on the notes of a Government stamp, acknowledging its responsibility, and whilst thus relieving the bank transfer all responsibility for the amount in question to the Provincial Executive, which guarantees it to the public; a very easy way, and not by any means a new one, of paying off old debts! However, in this instance the commercial body almost to a man, have positively declined to accept these 'billetes timbrados,' nor is this at all surprising under any circumstances, but when you learn that the Government stamp is so ineffectually placed that after a couple of days' use of the note it completely disappears, no surprise need certainly be felt at the refusal of the merchants to accept in payment of their goods notes for which nobody is responsible! Consequently the whole affair is at a dead lock, and the inconvenience experienced goes on daily increasing, and meanwhile we appear further off than ever from a practical solution; though reports have been put into circulation to the effect that the province is about to receive a large amount from the National Government in payment of lands ceded for colonisation purposes, part of which is to be applied to liquidate with the Banco de Mendoza, which reports have, however, been contradicted most positively by the Government organ, *El Constitucional*, so that we have still to wait some time before we learn what our fate is to be! Don Emilio Berruti, a gentleman of some standing in this city, has requested me to apply to you for information concerning his nephew, Don Luis Fique, for many years employed in the *Standard* printing office! If you can provide me with some particulars regarding this party's actual whereabouts and circumstances, you would much oblige,

Your Own Correspondent.

(Ed. Note.—Our friend and quondam employee, Don Luis, has given up the Black Art for the Navy, and is flourishing: nevertheless, he has no objection to a fortune, or any other good thing that may turn up for him at Mendoza.)

MALTINE.

(Extract of Malted Barley, Wheat and Oats)

The Original and only Reparative Composed of these three Cereals

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.

MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.

For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.

MALTINE is the most important combination for use in Constipation.

MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.

MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

The Compounds of Maltine

Can undoubtedly be used with greater success than any other remedy now known in diseases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation; Cholera Infantum and Wasting Diseases of Children and Adults; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.

MALTINE with Hypophosphites.—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.

MALTO-YERBINE.—Almost palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.
